Project Hosting Service

If any of these questions are bothering you then Uzma's Project Hosting will allow you the flexibility to choose from what you need, when you need it. This is a simple cost effective use of time and resources that takes the headache out of getting the job done.

What is it

Geoscience & Petroleum Engineering flexibleClient interface with Uzma's Geoscience and Reservoir Engineering Services including: Basin Studies, Reservoir Characterisation & Modelling, Production Enhancement, and Integrated Concept Selection and Field Development Plannig.

This is a unique flexible solution for those E&P companies who have reservations about contracting-out exploration and development studies in their entirety, and would like to maintain ownership and control of the project utilising, in-house staff expertise, preferred consultants, resources, computing and software tools, and selecting missing expertise and requirements from Uzma Project Hosting Service to form a unified effective Team. One flexible conglomerate to achieve your project objective.

How does it work

A client has a study to carry out and has an approved budget but lacks some of the software and or personnel required. Timelines are tight and budgets are constrained! Rather than form a disparate group of consultants who demand specific top-of-the-range software and offer no assurance of quality... the client makes one phonecall to Uzma. An experienced technical representative from Uzma quickly arranges to discuss the study objectives, deliverables and constraints. If the extensive not fully framed Uzma can propose a fit-for-purpose work scope utilizing the expensive project and studies experience within Uzma's project teams.

On-tap, tailored resources

You will be in the unique position of having at your disposal, the commercial software required for projects and also access to world class experienced personnel from all facets of the surface and subsurface disciplines. This truly is an E&P studies Supermarket where you the client, are free to pick-and-mix to suit your requirements.

Where can it take place

The Uzma Project Hosting Service can take place at a Clients office or at any one of Uzma's secure, modern fully equipped offices at Perth, Kuala Lumpur, Bangkok, Ahmedabad, Dhahran or other client office locations.
